

66%

OFFICEO, PRAHA HOSTIVICE, CZE

Based on a commission from a major developer, P3 Parks, we successfully completed a complete lighting project for a long term tenant, OFFICEO s.r.o., OFFICEO, the largest supplier of office supplies in the Czech Republic. The entire installation process was carried out according to the customer's specifications and wishes, without any operational restrictions. We seamlessly connected the new luminaires to the existing

electrical installation, which resulted in a quick and efficient implementation. Deliveries were on time and of excellent quality, fully meeting the customer's requirements. The result is 300 lux high intensity lighting, with the customer's running costs reduced by an impressive 66%. This cost-effective and efficient installation completely eliminated the need for difficult and frequent replacements of the original luminaires located at a height of 11 metres.

	Original installation	ARGIA lighting solution
Type of luminary	T5 6x54W	LED
Number of luminaires	290 units	290 units
Total Input	29 kW	9.86 kW
Consumption kWh/year	58,464 kWh	19,878 kWh

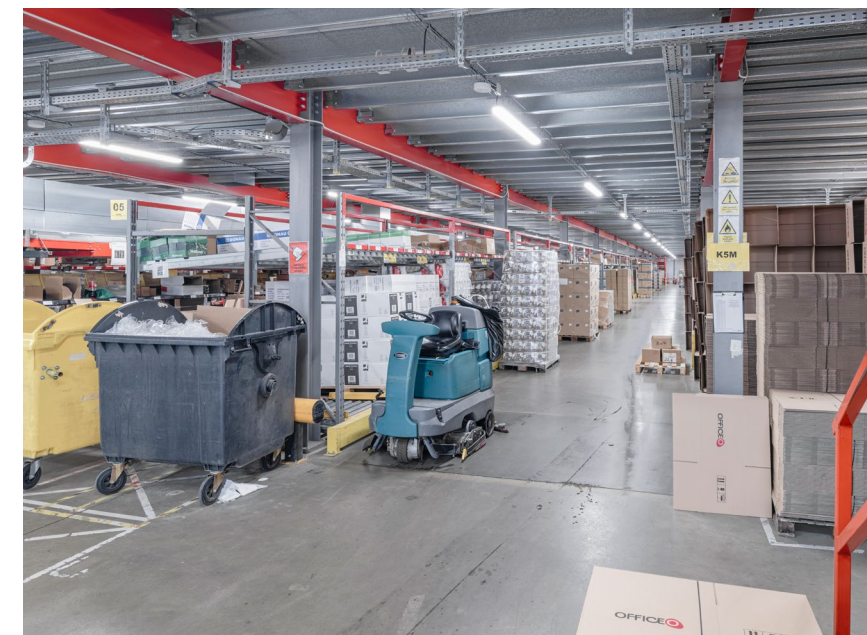

The customer's total operating costs were reduced by 66% while increasing light levels by up to 70%.
