

69%

ALIMPEX, PRAHA HORNÍ POČERNICE, CZE

According to the specifications provided by the prominent developer of P3 Parks, we have successfully completed a comprehensive lighting project for a long-term tenant, ALIMPEX FOOD a.s. The entire installation process was carried out precisely according to the customer's specifications and requirements, without any disruption to operations. We utilized the existing electrical infrastructure to connect the new lighting

fixtures, which further expedited and streamlined the implementation process. Our deliveries were prompt and of excellent quality, fully meeting the customer's demands. As a result, we achieved a high level of illumination, reaching 500 lux, while reducing the customer's overall operational costs by an impressive 69%. This energy-efficient and effective installation completely eliminated the need for demanding and frequent replacements of the original light bulbs located at a height of 10 meters.

	Original installation	ARGIA lighting solution
Type of luminary	T5 6x54W	LED Sovert
Number of luminaires	328 units	328 units
Total Input	98.93 kW	31.7 kW
Consumption kWh/year	866,627 kWh	277,692 kWh

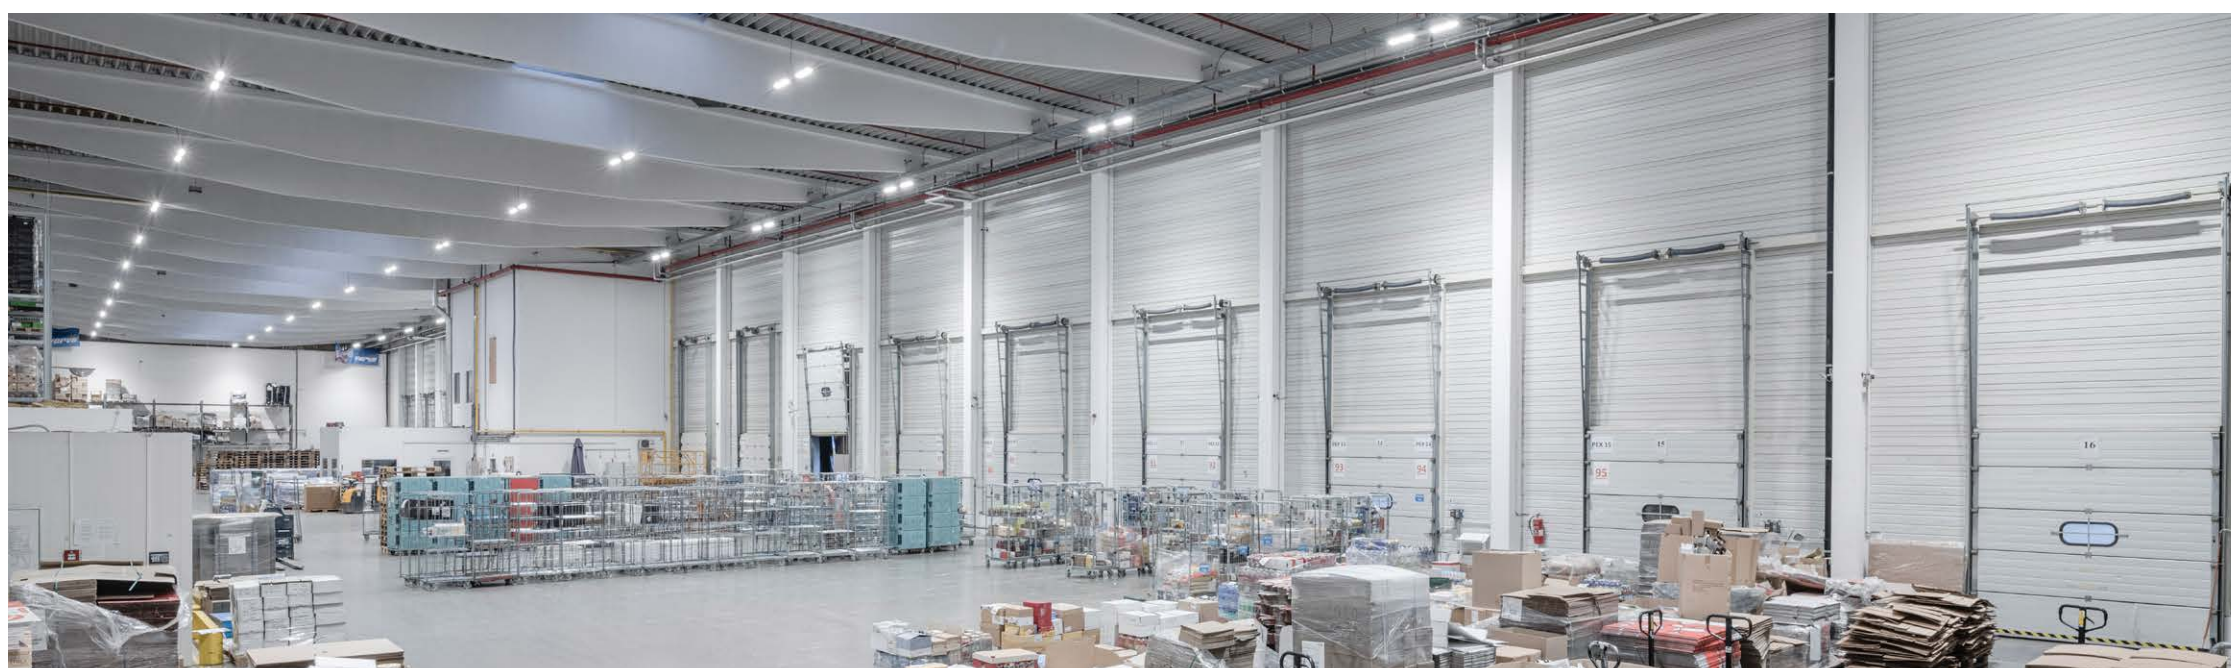

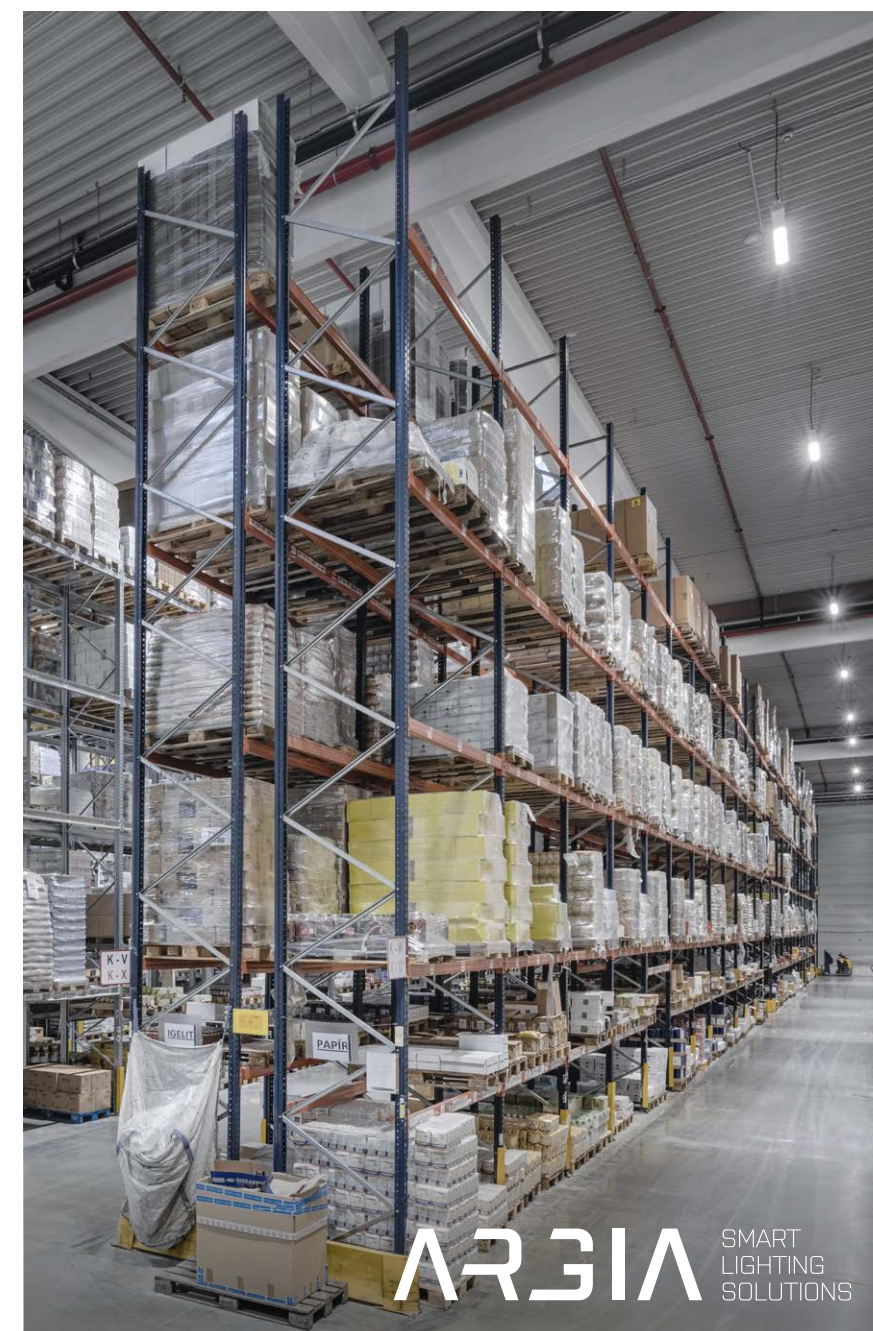

The customer's total operating costs were reduced by 69% while increasing light levels by up to 65%.
