ELECTRICITY SAVINGS:
174,312 kWh

	Original installation	ARGIA lighting solution
Type of luminary	Fluorescent lamp 2x58 W	INDUSTRY LINE SERIES
Number of luminaries	270 units	184 units
Total Input	37.26 kW	11.18 kW
Consumption kWh/year	249,046 kWh	74,734 kWh
Project result	Customer's total operating costs reduced by 69%.	
Return on investment	1.7 years	

During most of the exposed pre-Christmas period we implemented in just six weekends dismantling of the original fluorescent lights and install new LED luminaires in a very complicated environment of food production. Installation was carried out using three assembly teams and three different types of platforms, to make available facilities of the complex technological units.

Installation was with minimum limit of service during planned shutdowns of production. Working conditions in manufacturing have been greatly improved. Everything was delivered on time and in full accordance with the specifications of the customer. Of course, it was the fulfillment of all legal conditions.
